EMPOWERING FUTURE
GENERATIONS FOR SUCCESS

EARLY CHILDHOOD EDUCATION / PRE-SCHOOL

WHY CHOOSE OUR SCHOOL

Inspired by the Reggio Emilia approach towards early childhood education, GalaMundi continuously strives to operate as a reflective practice and to stimulate a child's curiosity to all that surrounds them. Our program is rooted in the belief that both the teacher and the learner play an active role in promoting independence, curiosity, decision making, cooperation, persistence, creativity, and problem solving.

HIGHSCOPE CURRICULUM

Our curriculum is a complete system for early childhood education. It is based on child development theory, research, and proven instructional practices. The curriculum has a set of teaching practices that are developmentally appropriate. HighScope also naturally integrates content areas of Science, Technology, Engineering, & Math (STEM) within the classroom to support language and literacy development.

BEST CHOICE FOR YOUR CHILD

KINDERGARTEN READINESS advantage

COR Advantage is an observation-based instrument available to our staff for systematically assessing the knowledge and abilities of children from birth through kindergarten in nine areas of development.

It is designed to measure children's progress in all early childhood programs utilizing key development indicators (KDIs) and is aligned with Arizona's Early Learning Standards.

Our Program Values

- ▶ *Creative & Educational Planning*
- ▶ *Nurturing Environments*
- ▶ *Caring Atmospheres*
- ▶ *Varied & Emergent Curricula*
- ▶ *Quality of Service*

INFANTS

Nurturing interactions with caregivers are essential and caregivers build authentic relationships by respecting that children have unique and individual temperaments.

TODDLERS

It is important for toddlers to have the opportunity to independently choose and access a variety of interesting and open-ended materials.

PRESCHOOLERS

Young children construct their knowledge of the world. They learn best from pursuing their own interests while being actively supported by adults.

Procure PARENT PORTAL

Our parent portal works across multiple devices so that parents can conveniently access the information they need. The portal provides automated billing, real-time updates and photos of your child throughout the day. Parents are able to message and communicate with teachers within the app.

The portal supports connections with parents via family reporting, access to your child's development profile, sharing of anecdotes, communicating of events, and activities that families can do with their child at home.

WE CARE ABOUT YOUR CHILDREN!

We are a family dedicated to child education and development. For the past 12 years, our school in the Galapagos Islands has grown and is considered one of the best early childhood centers within the community.

Our goal is to bring that success to the community of Flagstaff by providing quality early childhood education and preparing our future generations for success in Kindergarten and beyond.
